Each property will also get the initial Irrigation Inspection for system breakages and recommendations. Charleston Place, Academy Row and Meeting House Green will be the Week of the 1st. South Village, Oak Pond and Greenlawn TH as well as East Village Duplex will be inspected starting the week of the 8th. Blue Sage TH, Golden Aster Tri-plex and Parkview TH will be inspected the week of the 15th. This schedule is contingent upon extent of repairs needed at each property. The remaining month will be additional repairs based on findings.

Initial leaf removal was done at each property the first week of January and will continue throughout season. Areas were blown out, raked and leaves were bagged and removed. Dead and or failed plant material will begin to be removed this month as well.

Schedules may change based on weather and other circumstances which may be outside our control.
